Current Stock TRADE Price List February 2021

Cathedral Flooring - European Oak Plank

Cathedral Flooring is an exceptionally stable floor that is ideal for underfloor heating and commercial installations as it is able to withstand a wide fluctuation in moisture content which makes acclimatisation unnecessary. 15 year delamination guarantee.

Cathedral European Oak is available in two grades. Natural has minimal knots or Character Grade which has knots. Each pack contains 3 full x 2.4m lengths and one 2.4 length cut, unless otherwise specified.

21mm Floors (15mm ply + 6mm Veneer) (Suitable for UFH)

1.2353 Togg or 0.1235 m2k/W Thermal Resistance

When flooring is used in conjunction with UFH it must always be fully be bonded down

Thicknesses of flooring given is nominal sizes. Our floors can be supplied Raw, Sanded, Brushed, Finished or unfinished. We specify the plywood and wear layer dimensions used but these are subject to machining and finishing variation. We aim to meet our target sizes +/- 0.5mm but declare a tolerance of +/- 2mm compound board thickness and width.
